The purpose of the evening is to meet with residents to discuss the proposed designs and amenities planned for both parks. City staff will present information and facilitate discussion focusing on the following:

- A brief introduction to each park's history.
- Review and comment on the concept plans for each park.
- Budget and Scheduling.

What would YOU like to see in these parks?

Basketball, tennis and/or volleyball courts? Soccer pitches and/or Ultimate Frisbee fields? Splash pads and play structures? Community hall or field house? These are but some of the suggestions on the table...
